PROFILE

Entry-level Java Developer with hands-on experience in building backend and full-stack web applications using Java, JSP, Servlets, Hibernate, and Spring Boot. Strong foundation in OOP, Data Structures, and MVC architecture, with a keen interest in enterprise product development. Eagerness to learn and apply new technologies.

EDUCATION

Master of Computer Applications (MCA), IMRD, Shirpur 2024 – Present

- **Relevant Coursework:** Advanced Java, Data Structure & Algorithms, Advanced Database Management System, Web Technologies, AI & ML, DevOps and Block Chain Technology etc.
- **Expected Graduation: 2026** | **CGPA: 9.54** (up to Sem-II)

Bachelor of Computer Applications (BCA), KBCNMU, Jalgaon 2021 – May 2024

- **Relevant Coursework:** C++, Data Structures Algorithms, C#.net, Operating Systems, Cyber Security, Cloud etc.
 - **Graduated 2024** | **CGPA: 9.39**
-

SKILLS

- **Programming Languages** — Java, Python, C++
 - **Web** — HTML5, CSS3, JavaScript, Bootstrap
 - **Backend Development** — Servlets, JSP, JDBC, Hibernate, Spring core, Spring Boot, Maven, Spring MVC, REST APIs,
 - **Tools** — Git, GitHub, Eclipse, IntelliJ Idea, Visual Studio Code, Apache Tomcat, Postman
 - **Databases** — MySQL, MongoDB, PostgreSQL
 - **Software Engineering Concepts** - OOP, DBMS, Data Structures & Algorithms, SDLC etc.
 - **Soft Skills** — Problem Solving, Communication, Team Collaboration, Adaptability, Self-motivated.
-

PROJECTS

EduFlow – Student Management System | <https://github.com/chetanpatil45/EduFlow-SMS>

- Developed a role-based Student Management System with Admin, Teacher, and Student modules
- Implemented authentication, authorization, and CRUD operations using JSP, Servlets, and Hibernate.
- Improved data consistency and access control through role-based authorization.
- Used PostgreSQL for relational data management and followed MVC architecture.

UserVault – Profile Management System | <https://github.com/chetanpatil45/profile-manager>

- Designed and developed a Spring MVC–based web application for user authentication and profile management.
- Implemented user registration, login, logout, profile update, password reset, and account deletion using JDBC.
- Applied BCrypt password hashing, HTTP session management, and Servlet Filters for secure access control
- Followed MVC architecture, server-side validation, and secure handling of user data.

ProdInfo - CRUD Web App | <https://prod-info.netlify.app>

- Built a full-stack Product Management application with complete CRUD functionality, deployed backend on Render and frontend on Netlify. Gained experience with MongoDB Atlas, database connections, and cloud deployment.
- Source code: <https://github.com/chetanpatil45/ProdInfo>

Student Placement Prediction | <https://github.com/chetanpatil45/placement-prediction>

- Built a research-based placement prediction system using ML algorithms achieving approximately 89% accuracy. Strengthened analytical and problem-solving skills.
 - Compared multiple algorithms including Logistic Regression, SVM, Decision Tree, and Random Forest
-
