Professional Summary

Motivated MCA student with hands-on experience in Java, Spring Boot, REST APIs, and full-stack web development. Skilled in building secure backend applications using Spring Security, JWT authentication, Hibernate, and MySQL. Strong understanding of OOP, Data Structures, MVC architecture, and database design. Seeking opportunities as a Java Backend or Full Stack Developer.

Technical Skills

Languages: Java, JavaScript, Python

Frontend: HTML5, CSS3, Bootstrap, React.js

Backend: Spring Boot, Spring MVC, Spring Security, RESTful APIs, JPA/Hibernate, JDBC, Servlets, Thymeleaf

Security: JWT Authentication, RBAC, BCrypt Password Hashing, Session Management

Databases: MySQL, PostgreSQL, MongoDB, H2

Tools: Git, GitHub, Maven, Postman, Swagger/OpenAPI, IntelliJ IDEA, Eclipse, Spring Tool Suite, Apache Tomcat

Cloud & Deployment: GitHub Pages, Render, Netlify, MongoDB Atlas

Core CS: OOP, DSA, SDLC, MVC Architecture, DBMS, Exception Handling, DI, IoC, Authentication & Authorization

Projects

Role-Based Authentication System (RBAC) | Spring Boot, React, JWT, MySQL

- Developed a secure full-stack authentication system supporting Admin and User role-based access.
- Built REST APIs using Spring Boot and secured endpoints using Spring Security with JWT authentication.
- Implemented BCrypt password hashing, token validation, and logout token invalidation for enhanced security.
- Designed frontend interfaces using React Hooks and integrated APIs for authentication workflows.
- GitHub: github.com/chetanpatil45/auth-sys

EduFlow - Student Management System | JSP, Servlets, Hibernate, PostgreSQL

- Developed a multi-role student management system supporting Admin, Teacher, and Student modules.
- Implemented authentication, authorization, and CRUD functionality using JSP, Servlets, and Hibernate.
- Designed normalized PostgreSQL database schema and integrated Hibernate ORM for database operations.
- Followed MVC architecture to build a modular and maintainable backend system.
- GitHub: github.com/chetanpatil45/EduFlow-SMS

UserVault - Profile Management System | Spring Boot, Spring MVC, JPA

- Built a secure profile management application with login, signup, password management, and account deletion features.
- Implemented DTO-based validation, Spring MVC interceptors, and session-based authentication.
- Used Spring Data JPA and MySQL for backend persistence and efficient data management.
- GitHub: github.com/chetanpatil45/user-vault

ProdInfo - CRUD Web App | React, MongoDB, REST APIs

- Built a full-stack product management application with complete CRUD functionality.
- Integrated MongoDB Atlas for cloud database storage and API-based data operations.
- Deployed frontend on Netlify and backend on Render, gaining hands-on deployment experience.
- Live Demo: prod-info.netlify.app

Achievements

- Published research paper on **Student Placement Prediction using ML Techniques**.
- Ranked in **Top 5%** in NPTEL's **Joy of Computing using Python** with **94%** score.
- Secured **2nd Rank** in college-level competition for developing a **Movie Recommendation System**.
- Participated in **Smart India Hackathon** and developed a **Crop Recommendation System**.
- Publishing technical articles on **Medium** related to Java, Spring Boot, and backend development.
- Secured **3rd Rank** in BCA graduation and currently maintaining **9.54 CGPA** in MCA.

Education

Master of Computer Applications (MCA)

RCPET's IMRD, Shirpur | CGPA: 9.54

Bachelor of Computer Applications (BCA)

KBCNMU, Jalgaon | CGPA: 9.39

2024 – 2026

Expected May 2026

2021 – 2024

Certifications

Java (Basic) - HackerRank

Java Foundations - LinkedIn Learning

Joy of Computing using Python - NPTEL

SQL and Relational Databases 101 - IBM

SQL Intermediate - HackerRank

Oracle AI Foundation Associate
